

Description: New

The latest digital clock from the German BHB company with over 50 years experience of making chess timers. This clock offers a wide variety of programs and timing methods not only for chess but also for Go, Shogi, Scrabble, Draughts and other games. The clock features large, easy to read LCD displays and simple, four button programming. It comes in a robust gift box. Timing modes include:

- Classical - all moves in one time period.
- Fischer & Bronstein - fixed time plus bonus time per move
- Tournament - multiple time periods per game with automatic transition from one period to the next
- Go - with Byo yomi period programming
- Upcount - useful for Scrabble where the time limit may be exceeded
- Hourglass - as one clock ticks down time is added to the other clock
- User options - define your own timing system with up to nine periods using any of the methods described above, with five user defined programs

Also Features:

- Comfort by using large LCD displays
- Sound on/off during the game
- Protection from accidental resetting of changing values on the display during the game
- A clear program list, which enable viewing the details of chosen program, directly on the display
- User defined programs - free combination of one to nine periods
- Memory of five user defined programs
- Easy to use
- Die-hard favorite
- Fits in our carryall bag (not included)
